Rupali Bank PLC's profit **plummeted** in 2024 due to a **declining** operating income. The state-owned bank's profit dropped 82 percent year-on-year to Tk 11.22 crore in 2024.

The bank reported a **consolidated** earnings per share (EPS) of Tk 0.23 for the year ended December 31, 2024, down from Tk 1.28 (restated) a year earlier, according to a price-sensitive information disclosure.

The bank **attributed** the decline in EPS to a fall in total operating income.
